Addendum No. 2

To: Potential Bidders
Reference: Fire & Rescue Timekeeping and Scheduling Software
Agency: Augusta County
Solicitation: RFP #113201-25-01
Bids Due: September 26, 2024 at 2pm EST

The following information is made to the original referenced solicitation. Bid Due Date and time remains the same. Bidders shall acknowledge receipt of this Addendum on the Bid Form where indicated. Notice is hereby given that this addendum has been posted in full on the project's solicitation page of the Augusta County website and eVA.

Questions

Question 1: It's unusual to see GPS navigation (turn-by-turn direction capabilities) directly tied to staff schedules. It is stated in addendum no. 1 that staff needs visibility on the location of fire hydrants. How does this relate to scheduling, which typically focuses on employee shifts and working hours?

The three specific questions from the scope that are in question are:

Provide emergency notifications (call alerts) with turn-by-turn direction capabilities.

Pre-planning that is accessible from mobile devices and connectivity to county GIS.

Ability to upload preplans to the platform.

Response:

We are looking for an all-encompassing software that will not only accommodate the timekeeping and scheduling needs, but will also have a system that offers a call response and pre-planning that do not have to be connected to each other, but are offered through the same vendor. These do not have to show in the same software, but all of these are possible by the same vendor without a third-party or subcontractor.
