Service Authority Site Access:

For plans showing the construction of privately owned water/sewer mains/submains intending to connect to the Service Authority's systems, the property owner must sign in agreement with the following prior to plan review:

I hereby grant representatives of the Augusta County Service Authority, upon showing proper identification, access to the property associated with this project during the construction period for the purpose of inspecting the associated mains/submains and appurtenances to ensure compliance with the Service Authority's Design and Construction Standards. Furthermore, I understand that service to the property will not be provided until all construction is in compliance with the Service Authority's Standards and the necessary access easements have been properly recorded in accordance with the Service Authority's Standards. This right to access provided by you shall expire upon issuance of a Certificate to Occupy by the Augusta County Building Inspection Department.
