### <u>SAW CONSORTIUM – EMPLOYEES HEALTH INSURANCE</u>

The Board considered Committee/consultant's recommendations regarding self-funding options for Employee Medical Plan.

John C. McGehee, Assistant County Administrator, reported that Augusta County has worked with both Waynesboro and Staunton (SAW) for the last ten years and have jointly purchased health insurance. During that period of time, there have been various insurance companies involved but the area localities have remained a consortium. The consultant has recommended the possibility of funding the medical plan on a selfinsured basis. The arrangement would enable the group to retain surpluses in years when claims are below the insurance company's projected level. One of the main reasons for SAW to explore self-insurance at this time is the return of a claims surplus in the amount of \$713,039 for the 2010 plan year with Southern Health. Within a selfinsured plan, these surplus dollars would enable Consortium members to build a reserve fund for unexpected claim utilization (claim levels higher than expected) from approximately 100% to 115%. The surplus funds would be held in a 501(c)(3) trust account, with a percentage allocated to each entity, based on their portion of the total enrollment in the SAW Consortium. To guard against an unfavorable claim year, the Consortium should keep a reserve account to fund the possible deficit of claims. In addition to the surplus funds of \$713,039, the consultant recommended that SAW fund additional reserve dollars up to 50% to 80% of the possible claims deficit. Mr. McGehee added that, according to the Health Care Reform Legislation, in 2014, our current fullyinsured plans would have a premium tax of 3% to 5%. Under a self-

insured plan, we would be exempt from that tax. It was suggested at the quarterly SAW meetings that this information be given to the local governments for consideration. He noted that this had also been discussed at a Governance meeting with the three localities. Mr. McGehee asked that the Board give them authority to move ahead. If successful, this would not be implemented until January 2013. Special legislation will be needed to get approval from the General Assembly because of the insurance laws in An exemption of those insurance laws will be needed to form this selfinsurance consortium. Included in the agenda package was information regarding the amount of money Southern Health has made on the consortium since 2006. Also, included were preliminary numbers on what percentage of the reserve fund each locality would need. Mr. McGehee stated that he and Mr. Coffield had discussed this issue with the Superintendent of the Augusta County Schools. He noted that the Augusta County Schools is the largest organization within the Consortium; therefore, they would be required to have the largest amount of money to fund the reserve fund. He added that this could be funded over two fiscal years (June 30, 2012 - June 30, 2014). McGehee advised that there will be a number of actions required during this process.

Mr. Beyeler asked Mr. McGehee about the administrative process. Mr. McGehee said that it could possibly be handled the same way as Middle River Regional Jail Authority or the Landfill with a fiscal agent. Mr. Coffield added that it would be similar to what Augusta Health and Rockingham Memorial does. Mr. McGehee said that the County would receive a monthly bill from Southern Health of the claims incurred in that month that would have to be reimbursed. Southern Health has the responsibility to administrate the claims; they will receive an administrative fee for that service, which may be lower than what they are currently receiving.

Mr. Pyles understands that Augusta County is currently paying for insurance; money can be saved if risk is not taken through the insurance; we have health insurance for the next year; and "we are starting a process here tonight that will give us the option to go this other way if, as we move along, we continue to see it favorable". "We are not absolutely locked into anything by this vote tonight." Mr. McGehee confirmed that the County will not be locked into this action tonight. Mr. McGehee said that the enabling legislation would be needed. "There will be a number of decisions that this Board will have to make through this process."

Mr. Pyles moved, seconded by Ms. Sorrells, that the Board authorize staff to move forward with the next step of self-insurance.
