This is the new format suggested for minimum requirements for pump operators. The class will include the VDFP Basic Pump and Rural Water Supply curriculum. These have been combined in an effort to ensure the student receives the knowledge and skills necessary to effectively operate pumping apparatus in the diverse areas of Augusta County. Class is designed to give students the basic knowledge and ability to operate pumping apparatus.

**Students will need access to apparatus from their agency. This will be coordinated at the start of class.**
